Purpose of Contact: Sewage sludge data availability on ISEDS and additional SWD data

Discussion

I provided Andy with directions to the B995 sewage sludge analytical data packages for RIN 03S0058 placed on ISEDS for CDPHE review. Andy reported that he found the files to download. Andy also wanted to know if this data was on ISEDS. I reported that only environmental data is provided via ISEDS and that waste or D&D data, industrial hygiene, and radiological health analytical data are not stored in the Soil Water Database (SWD). Andy said this was good to know and that CDPHE may be interested in the waste or D&D data. I responded that we could provide CDPHE with the available electronic waste or D&D analytical data if needed.

Andy wanted to know when he could expect the groundwater data from SWD as I had stated in my regulatory contact records of 6-19-03 that we could provide the groundwater by the end of September. I stated that we could still try to get the groundwater data set to him but our current workload supporting ER has prevented me from working on this. Andy said this was all right for now but he would inform the rest of the CDPHE staff and would see how much of a priority this is.

Note: This regulatory contact record is a follow up to my regulatory contact records of 6-19-03, 02-05-03, 10-8-02, 09-11-02, 09-06-02, 7-31-02, 05-21-02, and 02-26-02.
